Re: Explanatory Letter – City of Commerce IRP Executive Attestation Requirement

Dear Ms. Fleisher:

City of Commerce Community Choice Aggregation Program is submitting this letter in order to explain why it is not providing a Senior Executive Attestation as part of its 2020 IRP filing.

The Senior Executive Attestation requirement applies to LSEs that were assigned an incremental capacity procurement obligation in D.19-11-016 and have elected to self-provide this obligation. City of Commerce Community Choice Aggregation Program was not assigned an incremental capacity procurement obligation in D.19-11-016 and as such is not subject to the Senior Executive Attestation requirement.

Thank you for taking the time to review this explanatory letter. If you have any questions regarding this letter, please contact Cathy DeFalco at the email provided below.

Sincerely,

/s/ Cathy DeFalco
